Overview of learning process

Once you have registered for the programme, you will be sent instructions for completing the EQ-360 and some pre-workshop reading.

During the workshop you will receive a copy of the EQ360™ Technical Manual and you will conduct someone else's EQ-360 debrief, so that you can get practice in doing it.

After the workshop you will be asked to conduct an EQ-360 assessment as a trial assessment and then you will write your experience up as a case study, and this will be assessed.
