TEAM EI GIVES **YOU** THE TACTICAL STEPS, TOOLS
AND SKILLS TO SUPPORT EXPERT TEAMS

WHAT WE CAN DO FOR YOU

Ei World and GEI Partners have brought together the world's best team experts and team coaches who together deliver results-oriented team coaching interventions. Team Emotional Intelligence is built while a team is actively doing its work. No need for fancy offsites.

Why are we different? Many approaches to team development do not address the role of emotion in **a complex, adaptive system**. This program equips change agents to help teams realize their collective optimal performance while they work.

The survey enables a team to evaluate where they are, and then **work systematically to develop the team behaviours** that will support the team functioning effectively as a high performing team.

Team EI Survey creates the catalyst to engage dialogue and resolve tensions. Enables 'elephant in the room' issues to be discussed with effective team norms and faster decisions.

WHY US?

The Team EI Survey is steeped in an evidence basis, with 25 to 30 years of research making it the most reliable and valid survey for teams. Focuses on specific behaviours so you are not left wondering "How do I get the team to trust each other?"
